

# Overview & Frequent Questions and Answers

Gain the freedom of greater compatibility when you purchase powerful new Autodesk® software with Autodesk® Subscription— and save up to 50 percent today.

Get Current and save yourself from having to re-create lost work as a result of sharing files in different versions, while avoiding costly project delays that can occur at the expense of incompatible software. When you purchase Autodesk® 2011 software with Subscription, you'll ensure greater compatibility, while minimising the potential for complications that can disrupt workflows, timelines, and ultimately, the accuracy of designs. This is because of flexible Subscription licensing terms—which let you run both previous or new software versions—so you can finish existing projects uninterrupted, while moving to the new software at your own pace.

Given today's economy, purchasing Autodesk 2011 software with subscription is the best way to keep your productivity high, while preventing time-consuming workarounds from shrinking your profit margins. With Autodesk 2011 software and Subscription, you gain a more efficient manner of working while benefitting from 2D and 3D software tools that let you design, visualise, and simulate your ideas to their fullest extent—before anything is built. Ultimately, it's the best way for you to stay current, compatible, and competitive in today's volatile market.

If you're using one of the following retired Autodesk software releases, you may be eligible to save up to 50 percent on your next Autodesk 2011 software purchase.

7. Are both network and standalone deployment available for Legacy purchases?
8. Is Autodesk Subscription required to purchase through the Autodesk Legacy Programme?
9. Are there any other requirements to participate in the Autodesk Legacy Programme?
10. How can I get more information on the Autodesk Legacy Programme?

### 1. What is the Autodesk Legacy Programme?

The Autodesk® Legacy Programme provides customers who own valid licences of select retired Autodesk® software the opportunity to purchase discounted, new licences of current Autodesk products.

### 2. What is the current discount Autodesk is offering to Legacy customers?

Under the Autodesk Legacy Programme, customers with AutoCAD R14 through 2006-based software licences have the opportunity to purchase new licences of current Autodesk products at up to 50% discount off the Suggested Retail Price when purchased with Autodesk Subscription. Autodesk® Subscription is required at time of Legacy purchase.

### 3. Who is eligible to participate in the Autodesk Legacy Programme?

Commercial customers, who own a valid licence of select, retired Autodesk software that was not upgraded before their respective, publicly announced retirement dates are eligible for this Programme. The Autodesk Legacy Programme is no longer available to education customers.

### 4. Are AutoCAD® LT customers able to participate in the Autodesk Legacy Programme?

Customers owning AutoCAD LT licences cannot participate in this offer.

### 5. Which Autodesk products are eligible for the Autodesk Legacy Programme?

Valid licences based on AutoCAD R14 through 2006 licences, Autodesk Inventor® 3, 4 and 5; Autodesk Inventor® Series 5, 6, 7, 8, 9, and 10; Autodesk® 3ds Max® 3, 4, 5, 6, 7, and 8, Autodesk® VIZ 2, 3, 3i, 4, 2005, and 2006, and Autodesk® Maya Unlimited 7.0.1 and 8 software products may be eligible to participate. This is not a complete list. Please contact an [Autodesk Reseller](#) to find out if the product you are using is eligible.

### 6. Am I eligible to “upgrade” my retired software?

Legacy seats are not upgrades or crossgrades from retired products, but are discounted new seats. Upgrades or crossgrades from retired products are not available for purchase from Autodesk after the retirement of that product. As with upgrades and crossgrades, Legacy Programme transactions require a valid serial number from the retired product for each new seat purchased.

### 7. Are both network and standalone deployment available for Legacy purchases?

Yes, if you require a network deployment for the new seats, then the network licence, rather than the standalone licence, should be purchased. Legacy customers are not grandfathered into the deployment of their retired product.

### 8. Is Autodesk Subscription required to purchase through the Autodesk Legacy Programme?

Yes, Autodesk Subscription is required on all Legacy Programme purchases. Subscription holders receive benefits including incremental product enhancements, personalised web support and self-paced training options with one annual fee.

### 9. Are there any other requirements to participate in the Autodesk Legacy Programme?

No. Other than the purchase of Autodesk Subscription, and providing a valid serial number for the qualifying products in an amount equivalent to the number of new discounted seats a customer wants to purchase under this Programme, there are no additional requirements.

### 10. How can I get more information on the Autodesk Legacy Programme?

An Autodesk Authorised Reseller will be able to assist you with any additional information you may need on the Autodesk Legacy Programme. Contact your [Autodesk Authorised Value Added Reseller](#) today.
